The post-hospitalization experience is a source of tremendous anxiety for patients and their families who are faced with coordinating home care after a hospital discharge. From Hospital to Home Care provides a comprehensive overview of the challenges and resources associated with each step in the transition from hospital to home, explaining the discharge process from an inpatient hospital stay, common issues associated with specific medical conditions, the unique needs of recently hospitalized patients, and the importance of home care in patient outcomes and quality of life. From Hospital to Home Care arms families with the knowledge necessary to navigate the discharge process and arrange quality care for those patients who wish to remain in their homes.
